### Main Ingredients

Macadamia oil contains phytosterols which make it effective at reducing inflammation. Along with Omega 3 and Omega 6 fatty acids, Macadamia oil can help with sensitive skin. It has been known to decrease the formation of rashes, reduces itchiness helping to ease eczema and psoriasis. The retinoids in rosehip oil can help brighten your skin, prevent blackheads, and reduce inflammation. Rosehip oil also contains linoleic acid, a fatty acid that can aid acne prevention and shrink pimples. Rosehip oil may help treat eczema, an inflammation of the skin that can cause itching and redness.

Hemi Squalane is Non-Comedogenic. Hemi-squalane won't clog pores and/or make acne breakouts worse, which makes them an excellent choice for those with oily and acne-prone skin. Emollient Properties: They help soften and smooth the skin, making it feel more hydrated and plump. Q10 benefits in skincare, it's been shown to prevent early aging signs by defending skin against oxidative stress, encourage skin repair, boost collagen, and keep cells active. Panthenol is a humectant meaning it holds and binds water, and these properties mean that it is ideal when it comes to keeping water in the skin. It also works as an emollient which means it can moisturize and soothe the skin, as well as help, protect it from environmental factors and skin stresses. Epithalon is a fountain of youth in more ways than one. When people use epithalon for skin care, it penetrates the surface of the skin and effects the body on a cellular level. It causes the production of more proteins which can help boost your immunity to outside diseases. Thanks to its unique composition, aloe vera gel can be used to eliminate dead skin cells and treat a variety of skin conditions, including acne, acne scars, sunburns, dark circles, and wounds. The benefits of hydrolyzed wheat protein are that it increases skin's firmness and helps to form a film to retain moisture and provide luminosity. It prevents the skin from drying out and diminishes the appearance of wrinkles. Unlike other chemical sunscreens that only protect against UVB rays that cause sunburn, Avobenzone also protects skin from UVA rays, which are the rays that cause premature aging and skin cancer.
